

Maksim Zinovev

SOFTWARE TESTER

0415 182 769 • MaksimZinovevSubmit@gmail.com • permanent resident • 1-3 Thomas St, Waitara, NSW 2077

Manual Tester with an exposure to Automation. **ISTQB certified**, I have 18 months of manual testing experience and I'm looking to expand my skills into Test Automation. Experience working as a part-time intern with Australian startup performing web UAT, end-to-end, exploratory, regression manual testing of document management SaaS platform.

KEY SKILLS AND COMPETENCIES

Skills User acceptance, exploratory, end-to-end, regression testing; exposure to web UI, REST API test automation.

Testing Tools: Selenium Web Driver, pytest, Pylenium.io (Selenium wrapper), Tavern (pytest plugin, API testing), Google developer tools, Postman, Charles Proxy.

Languages: Python, familiarity with HTML, CSS, JSON, XPATH.

Other tools: Git, GitHub, Unix command line, Microsoft package, Google docs, WordPress, Trello, screen and video capturing software. Familiarity with Jenkins, AWS.

EXPERIENCE

Manual Tester (part-time)

Aerofiler Pty Ltd is a Sydney based startup building smart cloud-based document management solutions to help organizations easily and effectively file, search, review and analyze documents. Fast, secure and easy to use, Aerofiler provides a wide range of workflows and integrations with modern cloud services.

📅 08/2019 – present 📍 Pyrmont NSW 2009

- Performed exploratory, end-to-end, regression, user acceptance (UAT), ad hoc testing in agile testing environment.
- Performed manual tests to validate integrations with such tools as Salesforce, AdobeSign, DocuSign, Zapier, Dropbox, Namirial.
- Used specifications, feature updates and documentation to develop test scenarios and write detailed test cases, testing checklists.
- Collaborated with development and testing teams to report issues, provide feedback, work status updates and discuss scope of testing.
- Filed and tracked bug reports using GitHub issues; provided concise and clear bug summaries along with relevant screenshots and videos.

Highlighted achievements and learning milestones:

- Created a repository of 400+ test cases using Qase (Test Case Management software).
- Wrote 40 web UI tests using Selenium Webdriver and Python.
- Helped the testing team to resolve issue with API testing tool which allowed to use its latest version.

Electrical Engineer 📅 12/2010 – 09/2016 📍 MegionErgoNeft, Russia.

Junior Electrical Engineer 📅 07/2008 – 12/2010 📍 OmskErgo, Russia

EDUCATION, TRAINING, COURSES

07/2020 - **AWS Cloud Practitioner Certification course (in progress)** 11/2019 - **GitHub for Web Designers, LinkedIn learning.**

05/2020 - **API Testing Foundations, LinkedIn learning** 08/2019 - **HTML & CSS, Codecademy.**

04/2020 - **Unix for Mac OS X Users, LinkedIn learning.** 07/2019 - **REST API Testing with SOAP UI, udemy.com.**

04/2020 - **Certificate IV New Small Business.** 06/2019 - **uTest Academy, utest.com.**

04/2020 - **Certificate IV New Small Business.** 04/2019 - **ISTQB Certificate.**

Bachelor of Engineering in Electrical Engineering, Major in Electric Power Supply, Omsk State Technical University, Omsk, Russia.
